Despite the transition to social media, I still delight in producing tangible products - items that are sure to be treasured for years to come with colour and quality that will stand the test of time!

Here at Captivate Studios we strive to bring our clients the highest quality products on the market. We use only dedicated print houses that specialise in professional products for photographers. You won't see us using Snapfish or Kmart!

A NOTE ON DIGITAL FILES

We class our digitals as a premium as you're not just "buying" an image – you are purchasing the copyright for extra printing. We pride ourselves on the quality of our work and our digital collections which start from \$520 for 4 images with limited copyright.

Our art takes hours to produce one photograph, so it will be impossible for us to show you each photo we've taken in unlimited background environments. We are all about quality not quantity. We are not a "shoot and burn" photography studio that will supply you with 30 images from a half hour shoot.

Our photography isn't really about snapping as many pictures as possible and handing over a USB stick - you are purchasing a piece of personalised artwork at the end of the day and our pricing reflects this.

Whenever you purchase one of our premium Wall Art portraits you will receive an unwatermarked digital file free to make prints up to 8x10".

THE PHOTOGRAPHER

Dramatic composite photography is my passion! Your portraits are something I put all my effort into. I aim to make every person that walks into my studio feel like they matter. Like they are my number one priority that day. I focus on a low volume, high quality experience.

The studio experience is much more than just creating pictures, it's about capturing a lasting memory of who you are at this moment in time, presevering the moment through custom art photography.

It's always a goal of mine to be able to make your images stand out. To make you the star, the focus. I want to showcase your personality and talents through this whole process.

I can't wait to create beautiful images that you will proudly show off to your friends and family. Because these images are 100% uniquely you and your skill.
